## ABOUT

I'm Taj Cohen and I am an email developer, specializing in HTML & CSS. I retain the practice and discipline needed to squeeze my foot through the door of this industry with confidence and flair! I specifically have a passion for collaborating with companies and creatives to deliver an optimal responsive email experience to inboxes all over the world by discussing, developing, testing, and launching great projects.

## WORK EXPERIENCE

### Email Development

(2020 - Present)

Freelance

- Hand-coded HTML emails using clean, standards-compliant code
- Manage the end-to-end email execution process from email set-up, testing, QA, live previews, and deployment
- Sliced and optimized images from HTML emails from layered PSD files
- Ensuring email compatibility and testing using Litmus

## EDUCATION

### CodingPhase.com - Online Training

(2017 - Present)

Email Development

Learned how to create responsive HTML emails using HTML, CSS, and Zurb Foundations, as well as testing emails with Litmus.

### Tarrant County Community College (Southwest Campus)

(2013 - 2015)
