ABOUT

I'm Taj Cohen and I am an email developer, specializing in HTML & CSS. I retain the practice and discipline needed to squeeze my foot through the door of this industry with confidence and flair! I specifically have a passion for collaborating with companies and creatives to deliver an optimal responsive email experience to inboxes all over the world by discussing, developing, testing, and launching great projects.

WORK EXPERIENCE

Email Development

Freelance

(November 2020 - Present)

- Hand-coded HTML emails using clean, standards-compliant code
- Manage the end-to-end email execution process from email set-up, testing, QA, live previews, and deployment
- Sliced and optimized images from HTML emails from layered PSD files
- Ensuring email compatibility and testing using Litmus
